**Reference: Change Order No. 1**

The Council has previously discussed the extension of new residential services to the four properties on the south side of Church Avenue (west of the clubhouse) that are currently served by the sanitary sewer main running through the golf course. The attached change order officially adds that work to existing contract with Kuechle Underground, at the cost that was discussed previously.

The change order also adjusts the substantial completion date to November 13<sup>th</sup>, from the original substantial completion date of October 30<sup>th</sup>. The extra two weeks is in part due to the additional service work but also due to the agreed upon start date for the construction activities (which will largely begin on October 19<sup>th</sup>), allowing for essentially four weeks of construction this fall.

Should you have any questions please feel free to contact me.

The Minnesota Department of Transportation will be resurfacing Highway 238 from Railroad Avenue in Albany to Upsala, during the summer of 2017.

Within the City of Albany, the project will include replacing sidewalks where needed and constructing pedestrian ramps compliant with the American's with Disabilities Act. In some areas, minor amounts of property will be purchased to provide space needed to implement the proposed improvements. The project will require the removal of some trees where the root systems are damaging the existing sidewalk, curb and gutter.

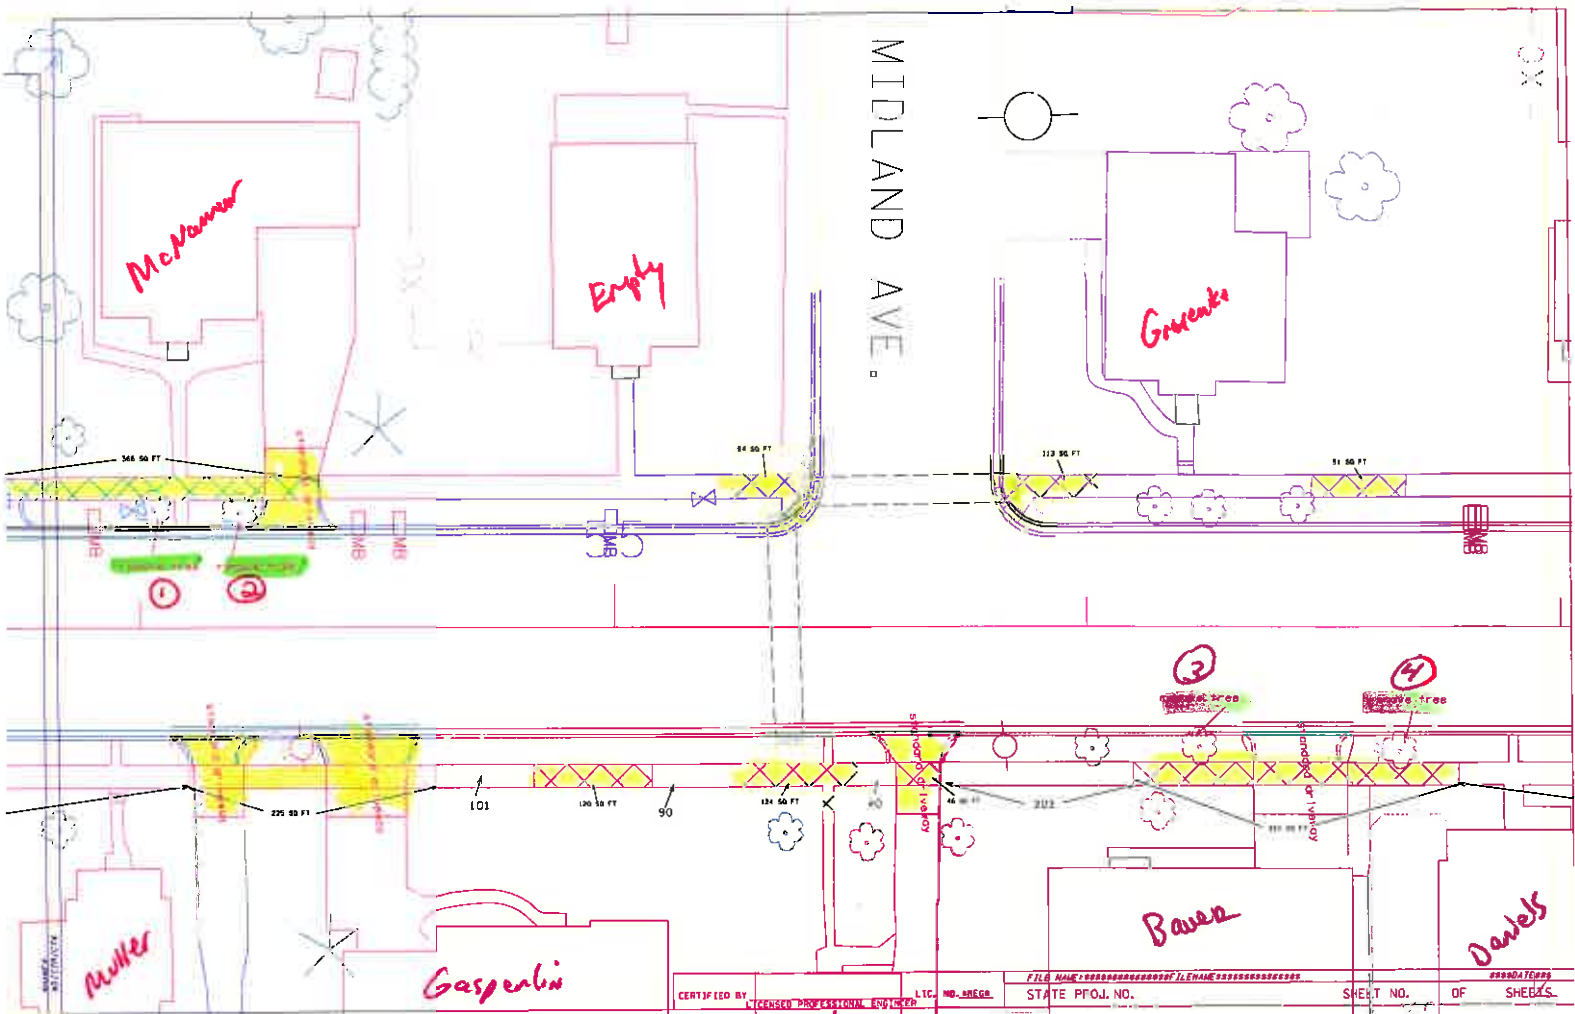

An open house will be held at the Albany City Hall, 400 Railroad Avenue on October 22<sup>nd</sup>, from 5:30 p.m. to 7:00 p.m. As a property owner along Hwy 238, you are invited to attend this open house meeting to view maps of the project and potential impacts, and to talk with MnDOT project staff.
